LISBON

Known as the city of the seven hills, its name comes from Olisipo, a name that the town already had before the Roman occupation, in 205 BC. Located in an area of strong seismic intensity, it suffered several earthquakes over the centuries, with the earthquake of 1755, followed by a tsunami and fire, completely destroying the city's riverside area. The city's reconstruction plan implemented by Marquês de Pombal is still visible today on the streets of Lisbon, mainly in downtown Lisbon. Lisbon was one of the main centers for the introduction and development of Christianity in the Iberian Peninsula
